

Eye Drop Instillation Instructions.

1. Wash your hands.
2. Tilt your head back and look at the ceiling.
3. Using your index finger, gently pull down your lower eyelid to form a pocket.
4. Gently squeeze 1 drop into the pocket. Do not let the bottle tip touch your eye, your fingers or any other surface.
5. Gently close your eye for about 2 minutes. This helps keep your medication in contact with your eye and prevents absorption into the blood stream.

REMEMBER:

Follow directions carefully

Do not miss doses. Use the exact number of drops recommended

Store medications out of reach of children
